### Auditor's Responsibility

Our responsibility is to express an opinion on this Statement based on our audit. We conducted our audit in accordance with the International Standards on Auditing, as incorporated in the Greek legislation. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Statement is free from material misstatement.

An audit involves performing procedures to obtain audit evidence, about the amounts and disclosures in the Statement. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Statement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the preparation of the Branch's Statement, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Branch's system of internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the estimates made by management, as well as evaluating the overall presentation of the Statement.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Accounting basis of preparation and limitation of use**

We draw attention to Note 1 of the above Statement, where is described, among other, the accounting basis of its preparation and the fact that the branch is financially dependent on the Head Office and all significant decisions are taken by the Central Administration. This Statement has been prepared solely for the purpose of presenting the accounts and the additional information that is provided by paragraph 3 of article 99A of L. 4635/2019, as in force, and may not be appropriate for any other purpose.
